A weekly update of News and Events in Covenant University January 12-16, 2015

## Coscharis Technologies Seeks Partnership with CU

The Management of Covenant University on Tuesday, January 13, 2015, welcomed a team from Coscharis Technologies to its auspicious campus in Canaan Land, Ota. The meeting, which held in the Vice-Chancellor's conference room, focused on innovative partnerships between the two organizations.

Speaking at the event, the Vice-Chancellor of Covenant University, Professor Charles Ayo, appreciated the team for their presentation and assured them that the Management would look into their proposal and give them a

feedback.

The Vice-Chancellor also commended their efforts to bridge the employment gap in the country through the promotion of technological innovations.

In his remarks, the Registrar, Dr. Olumuyiwa Oludayo, advised the Coscharis Technologies team to set up a fund in Covenant University to keep engineering new versions of relevant machines in order to keep up the technological development instead of constantly importing other countries' products.

While making his remarks at the event, the head of the Coscharis Team, Mr. Emomine S. Mukoro,

## CU Management Hosts Amicable Turning Point Ventures

Vice-Chancellor, Prof C. K. Ayo

Covenant University alumnus, Mr. Peter Olaoluwa, on Tuesday, January 13, 2015, visited the institution on a quest for business partnership and collaboration with his company, Amicable

company which offers Biometric Solutions for Time, Attendance and Access Control. They also deliver, supply and install Biometric Machines and Systems with dedicated software.

Turning Point Ventures.

Mr. Olaoluwa, who is a 2011 graduate of Architecture and also the Managing Director of Amicable Turning Point Ventures, a

While making his remarks, the Vice-Chancellor, Professor Charles Ayo, commended the effort of the Alumnus in coming up with such a competitive Biometric solution. The Vice Chancellor also offered the company some advice on how to improve on its product and marketing approach.

Mr. Olaoluwa was given a tour of the Biometric Laboratory of the University after the occasion for him to better understand the needs of the institution in that area and make necessary adjustments to his product.

In his remarks at the occasion, the Registrar, Dr. Olumuyiwa Oludayo, congratulated Mr. Olaoluwa for being able to start his own company in such a short time after graduation and expressed joy at the high level of

## WiniGroup Visits CU

Covenant University hosted WiniGroup on Tuesday, January 13, 2015, at the Vice Chancellor's conference room in Canaan Land, Ota. The company which specializes in Information Technology Security, Risk Management and Business Solutions, visited to secure partnership and patronage from the institution.

While making his remarks, the Vice Chancellor appreciated the WiniGroup team for considering Covenant University. He explained that the Management was hoping to be able to arrive at a solution that would handle the work flow involved in running a large organization such as that of the Living Faith Church Worldwide, which is the parent body of the institution.

Professor Ayo further stated, "It's not as if we are behind in technology right now, but we need

a solution that can provide oversight for our group of institutions. We are also looking at something to adopt at the Board level, which can provide comprehensive and on-the-spot assessment of whatever is happening at all the operational levels of the organization."

In his remarks at the event, the Registrar, Dr. Olumuyiwa Oludayo, stated, "Long before now, we had started to consider ways to integrate our operations and we had considered a number of products, but we will carefully consider your presentation alongside others and see what works best for us."

While introducing his team, the General Manager of WiniGroup, Mr. Sam Adeyemi, stated, "We have solutions that help enterprise and today we would be discussing the type that would help in terms of big data.

We would analyze how someone sitting on an enterprise that is very big could make quick and sound decisions, without damaging the organization or slowing it down in any form."

During his presentation, the Technical Manager of WiniGroup, Mr. Lanre Marcually, stated, "What we are looking at is a platform whereby you can have solutions running at different platforms and at the same time, from one single point. You can actually analyze respective data coming from these platforms and make decisions with them; financial decisions, operational decisions, those that have to do with resource distributions of an organization, etc."

Also present at the meeting were the Director for Centre for Entrepreneurial Development Studies, Dr. Chinonye Moses and a member of the Directorate of Media and Corporate Affairs.

stated, "We are part of Covenant University; we are sourcing for fund and agitating for the support of the private sector through the National Agency for Science and Engineering (NACENI) and the executive secretary of the Tertiary Education Trust Fund (TETFUND). TETFUND, before now, does not support private universities, but now it is changing its mind. Covenant University believes in what we are doing and that is why we are pushing some of these things."

Also at the meeting were the Director of the Centre for Entrepreneurial Development Studies, Dr. Chinonye Moses; the Assistant Chief Technical Officer, Department of Mechanical Engineering, Engr. C. O. Ajayi and a member of the Directorate of Media and Corporate Affairs.
